

Karthik Gururaj
Technical Lead at Infosys Ltd. - Pharmaceuticals and Life Sciences
Domain

- Email me on Indeed: indeed.com/r/Karthik-Gururaj/a51f07b3eda3aa6c

Highlights:

- 90+ months of Professional Experience in Informatica, Datawarehousing, UNIX, SQL, Teradata
- 8+ years of Domain Experience in Pharmaceuticals and Life Sciences
- Passionate and enthusiastic towards Data, Data analysis and Data engineering.
- In 2015, took over the application maintenance of the client data warehouse completely from third party vendor and stabilized the partially defunct system in a very short span of time. Thereby, winning a 5 year contract worth \$12.5M with the Clients.
- Managing a 4 member cross-functional team and also maintaining client operations on a day to day basis.
- Implemented various enhancements and Changes to the Client DW/BI Application. The Optimization brought down 75% of costs in the overall application maintenance. The project was successfully downsized from a 18 member team to a 6 member team in a span of 4 months.
- Awarded with a 'APPLUASE AWARD' within 4 months of joining the Deloitte and received numerous Appreciation for the excellent work done in terms of showcasing Technical and People management skills.
- Was awarded 'Star Performer of the month' for successive months during my tenure at Accenture.
- Experienced on both Support and Development environments.
- Received various distinctive appreciations on Root cause analysis and asset development activities.
- Actively involved in technical presentations and various on-stage sessions.
- Currently a counselling member for new joiners for orientation programs.

Willing to relocate: Anywhere
