- Worked as Contract employee for JPM through Infosys

Process Specialist

Select Portfolio Servicing Mortgage- Infosys BPO Ltd - Bengaluru, Karnataka -

November 2008 to March 2011

Responsibilities

- In REO Team (Real Estate Owned) worked in the process to Approve Invoices from the brokers for the expenses incurred by SPS on the property which they own by the Foreclosure sale
- Create Checks for the Invoices of HOA (Home Owners Associations) sent by the Attorneys of the state for the property foreclosed by SPS in the foreclosure. The bill is for the maintenance of the property by the HOA

Senior Process Associate

UBS- Infosys BPO Ltd - Bengaluru, Karnataka -

October 2004 to October 2008

Responsibilities

- Instrument Data Strategy and Analytics - Create new securities (Bonds and Futures) in DMSI database based on Securities Data provider (Bloomberg, Telekurs International and Euro clear) and the information provided by the trading desk.
- Worked in Account openings of Institutional, Wholesale, FITS accounts in Master files APAC and Shares AU and NZ, also learnt to use Shares and Australian Fixed Income trading system

- Provide the Correct information for the securities (Issuer, Coupon details etc.) to downstream trading systems like FOS, Martini, Julius, Ransom and Global 1
- Worked in Intersystem controls team performing Cash and Stock reconciliations between the system COLT (Continuous online trading) and SSE (Securities settlement engine)
- Fixed Income Reconciliation against Bloomberg and Central Data Repository (CDR), keep the data authenticated according to Market conventions till maturity
- Investigating the issues when the trade fails in FOS and other trading systems due to problems in the data and ensured to fix the problems related to Accrued Interest for Corporate and Mortgage bonds

FIRC-Analytics- Fixed Income Reconciliation against Bloomberg and Central Data Repository (CDR), keep the data authenticated according to Market conventions till maturity, Fix the errors

like that come in the Analytical output of SPIDER (Excel Macro) with Bloomberg. Maintain the correct Market data for corporate bonds in CDR according to Bloomberg.

London Cash Equities - Worked in Intersystem controls team performing Cash and Stock reconciliations between the system COLT (Continuous online trading) and SSE (Securities settlement engine) My primary purpose of the IBBN reconciliations is to ensure that all trades that are booked to the IBBN counterparty in COLT match and settle as soon as possible The total amount of stock being bought should equal the total amount being sold and cash considerations should match, as each side should be booked at the same price.

Highlights:

- Worked for Partner Data Management operations assignment in Sydney, Australia
- Supported client with my knowledge on data management process procedures

Process Improvements

- Created shortcuts to do Manual bulk update of the securities from Bloomberg by using Excel macros
- Documented procedures for exceptional mortgage and Corp bonds to avoid complexity and loss of money for the trading desk. This approach was appreciated by the client
