PROJECT UNDERTAKEN
Client ECC Version Role and Responsibilities
Welspun Group Plate & Coil Mills Division
SAP ECC 6.0

Consultant

SAP ABAP -

January 2016 to Present

Reports:
• Designed technical program specifications based on business
requirements.
• Generated basic lists and Interactive Reports for information in the
MM/SD including Sales,
Billing, Purchasing, Goods Received, Inspection Plan, and Batch
Determination using ABAP
programs, Screen, Report Painter and Menu Painters. Used Parameters,
Select-options and Match
Codes to make the reports more friendly and intuitive to the user.
• Generated different kind of reports like for PR (Purchase Requisition)
analysis using ALV, PO
(Purchase Order) Pricing details, Pending Export Sales order etc.
• Developed report for the daily production done.
SAP Scripts:
• Generated various client specific Layout sets and form letters using
SAP Script.
• Involved in modification of SAP scripts for Purchase orders (MEDRUCK)
and indents, Delivery
notes (RVDELNOTE), and Invoices (RVINVOICE) according to customer needs.
• Modified existing layout sets for Purchase Order and GR using SAP
Script.

Data Migration:

• Implemented both Call Transaction and Session Method of BDC accordingly, depending upon
the size, type, state and created routines for data upload using data extracts for sequential files
on the application server and UPLOAD/WS_UPLOAD for local files on the presentation server.
• Wrote ABAP programs for extracting data from SAP tables (Vendor master, Purchase Orders,
Invoices and remittance) to be transferred to vendors using non-SAP systems for reconciliation
and their local use.
Object Oriented:
• Created local and global classes with SE24 and within programs.
• Used the Standard ALV classes in OOPs ALV reports.
• Used ABSTRACT classes and Interfaces.
• Having knowledge and used the different object oriented concepts technically.
